been generally misleading and frequently distorted. In American domestic politics the winning of the Zionist vote, particularly in key states in Presidential election years, has been considered indispensable by Democratic and Republican party leaders. Accordingly, both parties have made perennial competitive bids for the support of a pressure group that, since 1948, has acted consistently in the interests of a foreign government.

"In international affairs, the United States has been handicapped by its partisan support for Israel. American diplomatic aid, without which Israel could not have been established or subsequently admitted to the United Nations, and the financial aid given to Israel by the United States Government thereafter — which has far exceeded American aid to all the Arab countries combined — has made it difficult to implement certain principal American foreign policy objectives."

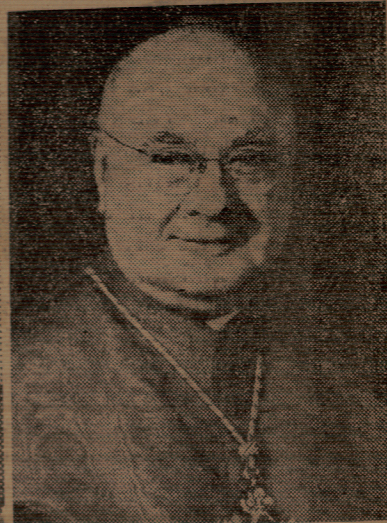

Rabbi Abba Hillel Silver was among the most notorious Zionist conspirators, and played a leading role in the period between 1947 and 1949, in dictating United States foreign policy on the Palestine question. In an address by Rabbi Silver before the American Zionist Council, on April 23, 1963 as reported in *The American Zionist* of May 1963, on page 5, Rabbi Silver describes how the Zionists in the United States were able to successfully influence United States foreign policy on Palestine questions. Rabbi Silver states:

"To win the support of the American people and Government, the American Zionist Emergency Council, which represented all Zionist bodies in the United States, then launched a nation-wide public relations program. Able and dedicated men, some of them exceptionally gifted in their several fields, were quickly marshalled into service. Headquarters were established in New York and Washington. Effective units were organized in every principal city in the United States. A special Christian Pro-Palestine Committee of outstanding Christian clergy and laymen was formed. A nation-wide campaign of education through books, lectures, magazines and radio broadcasts was inaugurated. Numerous conferences, and literally thousands of meetings were held in all parts of the country. Mass demonstrations and open-air rallies attended by tens of thousands of people were addressed by leading American personalities. In a critical moment, a march of thousands of war veterans, Jewish and non-Jewish, converged on Washington."

"Numerous local delegations contacted their public officials, their Governors, Congressmen and Senators in their several States. Many State legislatures were induced to adopt pro-Palestine resolutions and to forward them to Washington. We simply knocked at every door — the conventions of both political parties which were moved to include a pro-Palestine resolution in their national platforms; the halls of Congress where a pro-Palestine resolution was introduced and finally adopted. We knocked on the doors of the State Department and of the White House. We enlisted the active support of key people in every walk of life; authors, journalists, columnists, educators, clergy, political leaders — people who heretofore had been indifferent to our cause. We spent endless hours with Ministers and Ambassadors of foreign states who were members of the United Nations and arranged for important contacts to be made with their governments back home."

Rabbi Abba Hillel Silver failed to mention in that address, however, the fact that even Cardinals of the Catholic Church were implored to work for Zionist objectives, by contributions by Zionists to Catholic Charities and by personal friendships. Mr. Charles H. Silver, an influential Zionist, revealed this most shocking fact to the guests of a large banquet in the grand ball-room of the Waldorf-Astoria Hotel, at which Cardinal Spellman was Mr. Silver's guest of hon-

RABBI HILLEL SILVER FORMER PRES. TRUMAN CARDINAL SPELLMAN

RABBI HILLEL SILVER, notorious Zionist "fuhrer", dictator to USA political parties, "muscle-man" for Zionist gang that ordered President Truman to "recognize" Zionist armed uprising in Palestine as a lawful "sovereign state." HARRY S. TRUMAN, who sold out USA to USSR at Yalta, and ordered atom bombs needlessly dropped on Japan. Zionists forced Truman to "recognize" Zionist kangaroo regime in Palestine 11 minutes after it was "proclaimed", Truman explaining in his "Memoirs", "I am sorry, gentlemen, but I have to answer to hundreds of thousands who are anxious for the success of Zionism. I do not have hundreds of thousands of Arabs among my constituents." CARDINAL FRANCIS SPELLMAN, who bent his knee and bowed his head under Zionist pressure, and compromised Catholic Church throughout the world by forcing Latin American countries to supply the necessary United Nations votes to gain admission to United Nations of 1948 Zionist armed uprising in Palestine as "peace loving nation."

or, and seated on the dais with him. Under this revealing headline, "SPELLMAN AID IN GETTING ISRAEL INTO UNITED NATIONS IN 1949 DISCLOSED," The New York Times of May 11, 1964 reported, in a long account of Mr. Silver's confession, how Mr. Silver had "kept his secret" for fifteen years:

"Leading American Zionist disclosed last night that Cardinal Spellman had an active role in the admission of Israel to the United Nations in 1949. Charles H. Silver said the Cardinal had been influential in swinging several South American Delegations to the side of the struggling new nation."

In the years 1947 and 1948, Cardinal Spellman was visited by Christian Arab leaders on many occasions, who explained to Cardinal Spellman the justice and equity of the Arab point of view on the Palestine situation, and entreated Cardinal Spellman to publicly declare his opposition to the dismemberment of the Holy Land, at that time advocated by the Zionist hierarchy. Cardinal Spellman bluntly refused to do so, stating that the dismemberment of Palestine was a political question, in which His Eminence could not under any circumstances himself interfere. Cardinal Spellman did, however, see fit to lobby, and exert pressure on behalf of his Zionist friends, and admittedly became the determining factor in arranging for the admission into the United Nations of the racist, anti-Christian, and unlawful kangaroo Zionist regime in Palestine, created by aggression, massacres and theft. Cardinal Spellman lobbied for the Zionists, although he was fully informed about Zionist acts of desecration and profanation of Christian churches and monasteries, by Zionist marauders under the direction of Zionist leaders. Cardinal Spellman had in his possession at that time, the reports of Monsignor Vergani, General Vicar for the Latin Patriarch of Jerusalem for Galilee, from Father Pascal St. Jean, Superior of Our Lady of France in Jerusalem, among other similar reports. Cardinal Spellman surely had in his possession at that time, the letter dated August 20, 1948, sent by Monsignor Thomas McMahon, Secretary of the Catholic Near East Association of New York, an aide of Cardinal Spellman, to the Secretary General of the United Nations, in which Monsignor McMahon states:

"There have been constantly some violations and desecration of Catholic holy places. The Associated Press report of August 19, 1948 confirmed that Jewish forces perpetrated criminal acts against 12 Roman Catholic institutions in Northern Palestine . . . Seven churches, convents and hospitals have been looted by Jews and others seized by force."

Former President Harry S. Truman, in his *Memoirs*, complains about the pressure exerted upon him by Zionists, in his capacity as President of the United States, resulting in President Truman's "recognition" of an armed uprising in Palestine by the minority composed of recent immigrants, as a "sovereign state," less than eleven minutes after it was "proclaimed,"

"The facts were that not only were there pressure movements around the United Nations unlike anything that had been seen there before, but the White House too was subjected to a constant barrage. I do not think I ever had as much pressure and propaganda aimed at the White House as I had in this instance. The persistence of a few of the extreme Zionist Leaders — actuated by political motives and engaging in political threat — disturbed and annoyed me."

Senator J.W. Fulbright, Chairman of the United States Senate Foreign Relations Committee, in a speech made by him in the Senate on April 29, 1960, denounced Zionist pressure groups in a most candid manner, rarely heard in Congress, Senator Fulbright complained about:

"... the existence of a pressure group in the United States which seeks to inject the Arab-Israel dispute in domestic politics."

Senator Fulbright, referring to an amendment submitted by Senators Keating (Rep. N.Y.), Case (Rep. N.J.) and Douglas (Dem. Ill.), three Senators always at the beck and call of Zionists, to serve their cause in company with Zionist Senator Jacob Javits, stated the following:

"What it will accomplish is to annoy the Arabs and fortify them in their conviction that in any issue arising from the Arab-Israel controversy, the United States, because of domestic political pressure, will be on the side of the Israelis. This Arab conviction for which I regret to say history affords some justifications, is the greatest single burden which American diplomacy has to carry in the Middle East."

"In what is probably the most delicate international situation which exists in the world today, 180 million Americans find their foreign policy being whip-sawed by an irresponsible maritime union and by a minority pressure group. The President cannot conduct our foreign policy in the Middle East under these circumstances. That policy is being directed by minority pressure groups."
